# Registry System

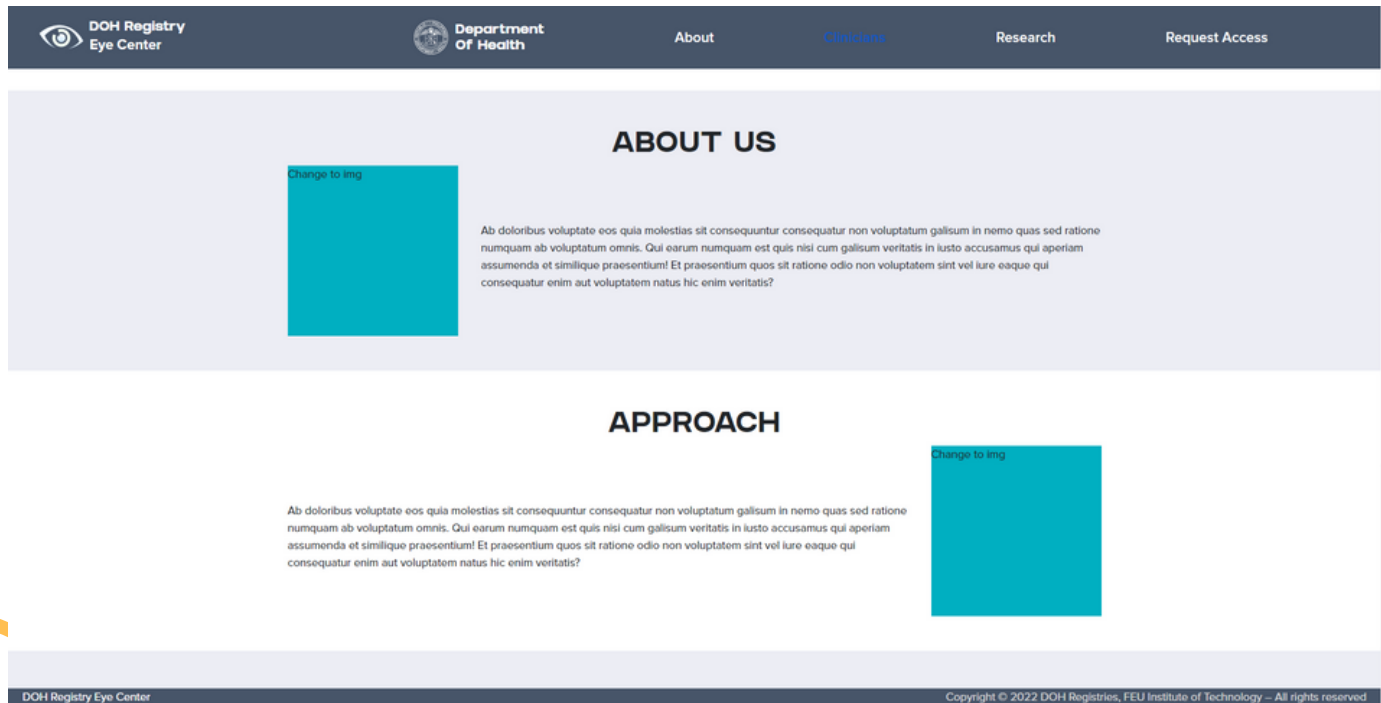

The screenshot shows the login page of the DOH Registry Eye Center. At the top, there is a dark blue navigation bar with the following elements: the DOH Registry Eye Center logo, the Department of Health logo, and links for 'About', 'Clinicians', 'Research', and 'Request Access'. The main content area is white and contains a login form with the following fields and links: an 'Email \*' field with the text 'admin@a.com', a 'Password \*' field with masked characters, a 'Forgot Password?' link, a 'Log In' button, a 'Need an Account? Register Now!' link, and a link to 'Click here to enter patient questionnaires'. The footer of the page includes the DOH Registry Eye Center logo on the left and the copyright notice 'Copyright © 2022 DOH Registries, FEU Institute of Technology – All rights reserved' on the right.

The First page you will see when you open the registry system is the **Home page** from there you can see the navigation bar and login form

# Request Access

The screenshot shows the 'Request Access' page of the DOH Registry Eye Center. The header includes the DOH Registry Eye Center logo, the Department of Health logo, and navigation links for About, Clinicians, Research, and Request Access. Below the header, there are three columns of placeholder text. The main content area is titled 'REQUEST ACCESS' and contains a form with the following fields: Title, Email, Firstname, Lastname, Practice, Practice Address, Password, and Confirm Password. There is also a 'Note' section with a large text area. A 'Request Access' button is located at the bottom right of the form. The footer includes the DOH Registry Eye Center logo and a copyright notice: Copyright © 2022 DOH Registries, FEU Institute of Technology – All rights reserved.

**REQUEST ACCESS**

To access the DOH Registries, simply complete and submit the form below. We'll then get in contact with you to help you get started with using the system.

Title  Email

Firstname  Lastname

Practice  Practice Address

Password  Confirm Password

Note

# Discussion Form

The screenshot displays the 'Studies' section of the DOH Registry Eye Center website. The header includes the 'DOH Registry Eye Center' logo, the 'Department Of Health' logo, and a user profile for 'DrAdmin Admin' with a 'Log out' link. The main content area is divided into two columns. The left column, titled 'Studies', contains a search bar and a 'New Topic' button. Below these is a large table placeholder with the text 'No data available in table'. The right column contains a form for creating a new discussion. The form includes fields for 'Title' and 'Subtitle', an 'Optional' field, a rich text editor with various formatting options (bold, italic, underline, link, unlink, list, indent, outdent, text color, background color, font size, font family), and a 'Submit' button. The footer of the page contains the text 'DOH Registry Eye Center' and 'Copyright © 2022 DOH Registries, FEU Institute of Technology — All rights reserved'.

After logging in user will automatically redirect to the  
**discussion page** from here the user may add and  
view discussion

Treatment for Gallstones

Subtitle

How do health care professionals treat gallstones?

**B I U** Normal Sans Serif

Open cholecystectomy, in which the gallbladder is removed through a large incision in the abdomen, is performed when your gallstones are severely inflamed, infected, or scarred from other operations. Your doctor may perform a cholecystectomy if problems occur during a laparoscopic cholecystectomy. After the surgery, you may need to stay in the hospital for up to a week. You will probably be able to return to normal physical activity after about a month.

Surgery to remove the gallbladder, called cholecystectomy, is one of the most common operations performed on adults in the United States.

How do health care professionals treat gallstones?

### Treatment for Gallstones

#### How do health care professionals treat gallstones?

If your gallstones are not causing symptoms, you probably don't need treatment. However, if you are having a gallbladder attack or other symptoms, contact your doctor. Although your symptoms may go away, they may appear again and you may need treatment. Your doctor may refer you to a [gastroenterologist](#) or surgeon for treatment.

The usual treatment for gallstones is surgery to remove the [gallbladder](#). Doctors sometimes can use [nonsurgical treatments](#) to treat cholesterol stones, but pigment stones usually require surgery.

#### Surgery

Surgery to remove the gallbladder, called [cholecystectomy](#), is one of the most common operations performed on adults in the United States. The gallbladder is not an essential organ, which means you can live normally without a gallbladder.

A health care professional will usually give you general [anesthesia](#). [NIH external link](#) for surgery. Once the surgeon removes your gallbladder, bile flows out of your [liver](#) through the [hepatic](#) duct and common bile duct and directly into the [duodenum](#). Instead of being stored in the gallbladder.

Surgeons perform two types of [cholecystectomy](#):

**Laparoscopic cholecystectomy.** Almost all surgeons perform [cholecystectomies](#) with [laparoscopy](#). Surgeons perform many [laparoscopic cholecystectomies](#). [NIH external link](#) on an outpatient basis, meaning you may be able to go home the same day. You will probably be able to return to normal physical activity in about a week.

**Open cholecystectomy.** A surgeon performs an [open cholecystectomy](#). [NIH external link](#) when your gallbladder is severely [inflamed](#), infected, or scarred from other operations. Your doctor may perform a [cholecystectomy](#) if problems occur during a laparoscopic [cholecystectomy](#). After the surgery, you may need to stay in the hospital for up to a week. You will probably be able to return to normal physical activity after about a month.

Surgery to remove the gallbladder, called [cholecystectomy](#), is one of the most common operations performed on adults in the United States.

## PDF

The screenshot shows a PDF viewer interface. At the top, there is a dark header bar with a status line indicating '1 / 1' pages, a zoom level of '100%', and icons for zooming in/out and full screen. Below the header, the document content is displayed. It starts with the title 'Document' centered. Below the title is a table with five columns: 'Files', 'Patient', 'OCR', and 'Action'. The table contains seven rows of data, each representing a file upload. The 'Files' column lists the file names, the 'Patient' column lists the patient names, and the 'OCR' and 'Action' columns are empty.
